

PROFILE

Matthew maintains over 16 years of experience in architectural design with an adept focus on translating clients' visions into tangible solutions. His emphasis on effective team communication and mitigating unintended consequences results in client satisfaction and fostering strong collaborative partnerships.

With over 15 million sf of industrial warehouse speculative buildings, 100,000 sf of industrial tenant improvements, and 400,000 sf of commercial office and retail design, his experience has produced opportunities to improve upon his technical expertise and design acumen. As a licensed architect, Matthew is able to advocate for client needs and work through appropriate solutions that meet both design intent and proper function of the space, while adhering to building and jurisdictional codes. The intended result is experience and expertise applied to create a building or space which ultimately has a positive impact on both the client and the surrounding community.
