

TYLER CAMPBELL

ARCHITECTURAL ASSOCIATE

PROFILE

Tyler has recently graduated from the University of Kansas with his master degree where he gained knowledge in design build programs and construction management. Before coming to studio North he had a background in residential architecture. Tyler uses his digital drafting and 3-dimensional modeling skills through (BIM) softwares like Revit, Autocad, Lumion, and Adobe Suite.

Tyler is currently pursuing towards the completion of the required NCARB hours and Architectural Registration Exams to receive his architectural license in the state of Missouri. Once this has been achieved Tyler is looking to get his license in other states to help further his knowledge in architecture.
